

AXIO HARDSLEEVE
HARD BODY

Tucking your MacBook or 15-inch MacBook Pro into Axio's Hardsleeve case is like outfitting your laptop with armor. The hard plastic outer shell provides protection from dings and scratches, while the EVA foam inside cushions your 'Book and helps to absorb shocks. The Hardsleeve doesn't have handles or pockets, so it's not great for toting, unless you don't mind carrying it as you would a book. Still, the Hardsleeve is ideal for when you want to give your 'Book extra protection inside another bag or your luggage.

The bottom line. Take care of your MacBook, and it will take care of you. The Hardsleeve is a good way to start.—Michelle Victoria

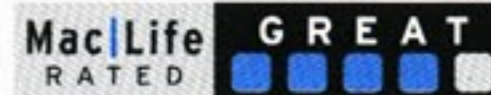

HARDSLEEVE

Axio
www.axio-usa.com
Price: \$79.95
Requirements: MacBook or 15-inch MacBook Pro

+ Stylish. Good protection.

- No pockets or handles.

Not bulletproof, but tough enough for everyday use.
